STANFORD LINKED DATA WORKSHOP
Linked Data Manifesto

- Publishing data on the web for discovery and use
- Continuously improving data and Linked Data
- Structuring data semantically
- Collaborating, rather than working alone
- Adopting Web standards, rather than domain specific ones
- Using open, commonly understood licenses

Task Group on Identity Management in NACO

- As strings lose their function as the primary bearers of “uniqueness” but continue to have value as human-readable information, what is necessary to facilitate separating display needs from back-end functionality?
Wikidata Pilot/Stanford

- Stanford-specific entities in Wikidata
- Wikidata for metadata on Middle Eastern movie posters
- Mutual linking of Wikidata and LC-NAF for motion picture resources
