Entity definitions: IFLA-LRM

**Work**: the intellectual or artistic content of a distinct creation.

**Expression**: a distinct combination of signs conveying intellectual or artistic content.

**Manifestation**: a set of all carriers that are assumed to share the same characteristics as to intellectual or artistic content and aspects of physical form. That set is defined by both the overall content and the production plan for its carrier or carriers.

**Item**: an object or objects carrying signs intended to convey intellectual or artistic content.

Entity definitions: BIBFRAME

Hub

The Hub is a bflc Opus type identifier. The bf:Opus is an entity that permits the grouping of works that are considered functional or near equivalents. The opus is defined by a constellation of elements that form the shared content of BIBFRAME works.

Instance: http://id.loc.gov/ontologies/bibframe/Instance: resource reflecting an individual, material embodiment of a Work.

Item: http://id.loc.gov/ontologies/bibframe/Item: single example of an Instance.

<http://id.loc.gov/ontologies/bibframe/Opus>

The Opus is a Share-VDE BIBFRAME Opus type identifier. The bf:Opus is an entity that permits the grouping of works that are considered functional or near equivalents. The opus is defined by a constellation of elements that form the shared content of BIBFRAME works.

Work: http://id.loc.gov/ontologies/bibframe/Work:
A work is a resource reflecting the conceptual essence of a cataloguing resource. A work is defined by a constellation of elements representing the specific intellectual or artistic form that an opus takes each time it is “realized”, paired with related elements required to define the conceptual essence of said realization.

Instance: http://id.loc.gov/ontologies/bibframe/Instance: resource reflecting an individual, material embodiment of a Work.

Item: http://id.loc.gov/ontologies/bibframe/Item: single example of an Instance.
The challenge of data models interoperability

Share-VDE Sapientia Entity Identification (SEI) Working Group decision of June 10th 2020:

Resource that is a svde:Opus is also a bf:Work
Likewise resource that is a svde:Work is also a bf:Work

See the SVDE entity model compared to BIBFRAME and IFLA-LRM and an example of application of the model.
