

Share-VDE institutions

Share-VDE currently connects the catalogues of libraries in the **US, Canada and Europe**, and will include an ad hoc pool of data from the **PCC - Program from Cooperative Cataloguing**, in the framework of the **LD4P3 project**.

The **founding members** of the initiative are the Library of Congress, the National Library of Norway, Stanford University, the University of Alberta, the University of Chicago, the University of Pennsylvania.

All Share-VDE members contribute to the initiative through the **Advisory Council and the working groups** devoted to the various work streams.
