

## Members/Share-VDE working groups

The activities of Share-VDE are organised into several work strands. Being a community initiative, the goals and desired outcomes are defined by the participating institutions through active engagement in different working groups that meet on a regular basis.

Share-VDE member libraries are welcome to join one or more working groups based on their interest in a specific work strand and on the active contribution they can bring to the discussion. To become a member of a working group, contact the chair or Share-VDE team at [helpdesk@share-vde.org](mailto:helpdesk@share-vde.org).

### **SVDE-AC Cluster Knowledge Base Editor working group (CKB editor)**

---

An essential part of the MARC to RDF conversion process is the maintenance of metadata that have been produced and registered on the Cluster Knowledge Base (CKB); the group analyses how libraries interact with the CKB and their use of the Editor for modifying (correcting / enriching), deleting, merging and separating clusters; the same approach will be applied on the data originally created in BIBFRAME.

## **SVDE-AC Sapiientia Entity Identification working group (SEI)**

---

The Sapiientia Entity Identification WG reviews the identification and clustering process of Share-VDE entities and submits feedback on potential improvements or optimizations; reviews the use of primary resource identifiers in Share-VDE dataset and provides feedback as appropriate; engages with the PCC to identify and/or develop best practices for use of these identifiers in BIBFRAME and MARC data.

## **Share Family National Bibliographies working group (NB)**

---

Among the Share Family of library driven initiatives a new working group has started dedicated to the practical cooperation among the National Bibliographies. Considering the important presence of several National Libraries in the Share-VDE community and in the broader network of institutions that follow the progress of this initiative and of other Linked Open Data projects, this working group has been launched in order to study and address the needs of National Libraries and institutions that hold National Bibliographies in the framework of a shared entity discovery environment such as the Share Family of initiatives.
